

# San Diego & Imperial Valley CATHOLIC SCHOOLS

## Diocesan School Re-Engagement Plan

### Temperature Screening

Students, teachers, and staff will be required to get temperature checks daily upon arrival. Anyone with a temperature of 100.4 or above will be sent home. A doctor's note will be required prior to going back to school. Random temperature checks may be done throughout the school day. Anyone with a temperature or who is feeling ill should stay home to maintain a healthy school campus.

### Visitors & Volunteers

At this time, it is our recommendation that for the 2020-2021 school year, we limit the use of campus volunteers when possible. Schools will provide alternative means of serving our communities. Visitors should not be permitted on the campus during the school day other than the front office or to provide essential services. This recommendation is made based on the need to limit the exposure of our students, faculty, and staff.

### Cleaning & Disinfecting

Enhanced cleaning protocols have been established to disinfect the campuses daily. High touch surfaces will be disinfected throughout the school day as necessary. Schools will have the cleaning and disinfecting materials they need.

### Mass, Gatherings, Sporting Events

School Masses will follow the protocols in place by each parish. All athletic sporting events must adhere to state and local guidelines. Strategic social distancing for all gatherings on campus, inside and outside of school facilities, will be observed.

### Strategic Social Distancing

Students, teachers, and staff are required to wear facial coverings.\* Classroom seating will be arranged to maximize strategic physical distancing and to limit face-to-face contact. Classes will alternate use of other campus areas, such as outdoor spaces, to maintain reduced capacity and strategic distancing protocols as necessary.

*\*Subject to change based on current public health guidelines.*

### Instructional Programs

Students will begin the 2020-2021 academic year on campus as much as possible with the expectation that specific health and safety procedures will be required. Schools are also prepared for virtual learning, which means that teaching and learning will continue even if students are not able to participate in on-campus activities to protect their health and safety.
